

Ethical Procurement

At Auto Trader, we care passionately about contributing to the community and creating a diverse and inclusive company culture for our people, customers and partners. We work tirelessly to support the communities which we work in and make a difference to the industries in which we operate. We have a zero-tolerance approach to modern slavery and we are committed to acting ethically and with integrity in all our business dealings.

Our “Make a Difference” and “Diversity and Inclusion” Guilds are two cross functional teams that lead the design and delivery of our Diversity and Inclusion (D&I) and Corporate Social Responsibility (CSR) strategies. All our colleagues are committed to our value of being “Community Minded” by creating an inclusive working environment for each other. We also participate in a variety of initiatives which include fundraising and volunteering for various charities, providing skills mentoring and promoting the environmental sustainability of our offices.

We pro-actively seek supplier relationships with those who equally share our passion for contributing to the community and creating diversity and inclusivity within their own cultures and supply chains.

We encourage our suppliers and partners to drive their own CSR efforts in line with their principles. We believe strongly in collaborating with our supply chain, so we invite them to share our ambition to erase inequalities in the workplace through initiatives like the AUTO30% Club, addressing the gender pay gap, becoming a Disability Confident and Autism Friendly employer, join organisations like Stonewall and the Inclusive Companies Network.
